Lessor, in consideration of the sum of One and no/100 Dollars ($1.00), the receipt of which is hereby acknowledged and of the covenants and agreements herein contained, does hereby grant unto Lessee all of the oil and gas and the consents of other, in and under the lands hereinafter described together with the exclusive right to explore, drill and operate for, produce, and market oil and gas and their constituents, the right to lay pipeline to transport oil and gas and their constituents from the lands leased hereunder and other lands, the right to build and install such roads, tanks, equipment and streets ancillary thereto to carry on operations for oil and gas, together with the right to enter thereon at all times and to occupy, possess and use so much of said premises as is necessary and convenient for all purposes described herein.

3. This lease shall remain in force for a primary term of 2 years and as long there after as operations described above are being conducted on the premises; or if oil or gas is produced, or is capable of being produced.

4. The royalties to be paid by Lessee are:
(a) On oil, one-eighth (1/8) of the produced and saved from said land, same to be delivered at the wells or to the credit of the Lessor;
(b) On gas of whatsoever nature or kind produced and sold, one-eighth (1/8) of the net proceeds realized by Lessee from the sale thereof after deduction of reasonable gathering, treatment and compression costs;
(c) On gas of whatever nature or kind produced and used by Lessee (all the premises) and not sold, one-eighth (1/8) of the highest price paid at the time of sale for natural gas by a public utility purchasing gas in the same county. The royalties shall be paid by Lessee within 20 days after Lessee receives payment therefor. In the event all wells on the leased property are shut in for any reason for a continuous period of six months, then on or before the end of each calendar year during which such wells are shut in, Lessee shall pay Lessor a sum in payment of One Hundred Dollars ($1.00) per year for each acre, prorated for the period such wells are shut in, and this lease shall continue in full force and effect as provided in paragraph 5 so long as such payments are made.

5. If operations for a well are not commenced on the premises within 12 months from the date of this lease, this lease shall terminate as to both parties unless Lessee on or before that date shall pay Lessor the sum of $500.00, which shall operate as a rental for the commencement of operation for a well for twelve (12) months from said date. Such rentals may, at the option of Lessee, be paid quarterly or annually. In like manner and upon like payments and tenders, the commencement of operations for a well may be further deferred for periods of the same number of months within the primary term of this lease. This and all other payments due under this lease shall be made by check or draft and shall be deemed tendered when either delivered to Lessor or any of them or mailed to Lessee or any of them at the above address. This lease shall not terminate for failure to pay said rentals unless Lessee gives Lessee written notice of said failure and the rental due is not paid within ten days of the receipt of said notice by Lessee.

6. If Lessor owns a lessor interest in the above described land then the entire and undivided fee simple estate therein, then the royalties and rentals provided for herein shall be paid to the Lessor only in the proportion which Lessor's interest bears to the whole and undivided fee. In the event a well drilled hereunder is a dry hole and is plugged according to law, this lease shall not terminate if within twelve (12) months from the date of the completion of the plugging of such well Lessee shall commence another well or if Lessee pays delay rental as hereinafter provided.

7. Lessor may lay a line to one gas well on the leased premises and connect at the location in the manner designated by Lessee on said land and may take annually up to 300,000 cubic feet of free gas, produced from said well for use for heat and light in the Lessor's facility located on said land, or receive payment at wellhead market rate for any unused portion of the 300,000 cubic feet of free gas, at Lessor's risk and expense, subject to the use and the right of abandonment and surrender of Lessee. Lessor shall have the right to use free of cost, gas, oil, and water found on said land for its operations thereon, except water from the wells of Lessor. When requested by Lessor, Lessee shall bury pipelines below normal plow depth in cultivated areas and shall pay for damages caused by its operations to growing crops and to fences on said land. No well shall be drilled nearer than 100 feet to the house or barn now on said premises, without the written consent of Lessor. Lessor shall have the right at any time during or after the expiration of this lease to remove all machinery, fixtures, and any other structures or improvements placed on said land by Lessee, including the right to draw and remove all casing.

8. The rights of either party hereunder may be assigned in whole or in part. No change in ownership of the land or the rentals or royalties shall be binding on the Lessee until Lessee has received notice and has been furnished with the written transfer document or certified copy thereof. In the event this lease shall be assigned as a part or as to parts of the above described lands, and the holder or owner of any such parts shall fail or make default in the payment of its proportionate part of the delay rental, such default shall not operate to defeat or affect this lease insofar as it covers a part or parts of said land upon which Lessee or any assignee hereof shall make due payment of said rentals.

9. Lessor hereby warrants and agrees to defend the title to the land herein described and agrees that Lessee, at its option, may pay and discharge any taxes, mortgages, or other liens existing, levied, or assessed on or against the said lands and produce and, in the event it exercises such option, it shall be subrogated to the rights of any holder or holders thereof and may reimburse itself from any payments due hereunder.

10. When drilling, reworking, production, or other operations are delayed or interrupted by force majeure, this is by storm, flood, rain, snow, or other act of God, fire, war, rebellion, revolution, riot, strikes, difference with workmen, or failure of carriers to transport or furnish facilities for transportation, or as the result of any law, judgment, order, rule, regulation, requisition or necessity of any government, Federal or State, or Local, or as a result of any cause whatsoever beyond the control of lessee, the time of such delay or interruption shall not be counted against lessee, anything in this lease to the contrary notwithstanding, but this lease shall be extended
for a period of time equal to that during which Lessee is so prevented from conducting such drilling or other operations on or producing oil, gas, casing head gas, condensate or other minerals from the premises. This lease shall be subject to governmental rules or regulations, and this lease shall not be terminated, in whole or in part, nor shall Lessee be held liable in damages, for failure to comply therewith, if compliance is prevented by, or such failure is the result of, any such law, rule or regulation. Lessor grants Lessee the authority to compromise or settle any disputes or conflicts with governmental agencies, public utilities or any entity relating to this lease or production therefrom and related contracts, and Lessee shall defend and hold Lessor harmless for all issues settled in such manner.

11. Lessee is hereby granted the right at any time to utilize the leased premises or any portion thereof, as to any or all strata or stratum, with any other lands for the production of oil and/or gas and/or the constituents of either. No such unit shall embrace more than one (1) acre, provided that if any governmental regulations shall prescribe a spacing pattern for the development of the field, then any such unit may embrace as much additional acreage as may be so prescribed. Operations upon and production from the unit shall be treated as if such operations were upon or such production were from the leased premises whether or not the well or wells are located thereon, provided, however, that Lessee shall pay Lessor, in lieu of any other royalties thereon, only such proportion of the royalties stipulated in paragraph 4 as the amount of Lessor's acreage placed in the unit, or Lessor's royalty interest therein, bears to the total acreage in the unit, and provided further that Lessor may take free gas as provided in paragraph 7 and hereof from a unit well only if said well is located on lands actually owned by Lessor.

12. Following completion of any producing well, Lessee shall:
(a) Fill all pits used during drilling which are not required for production purposes or by any government regulations;
(b) Remove all concrete bases, drilling supplies and drilling equipment; and
(c) grade, plant and seed the area disturbed by drilling that is not required in production of the well, where necessary to bind the soil and prevent substantial erosion and sedimentation.

13. Lessee may at any time surrender all or any part of this lease by delivering or mailing a release thereof to Lessor, or by placing a release of record in the proper county. After a partial surrender, the rental and shut in payments specified above shall be proportionately reduced on acreage basis.

14. This lease and all its terms, conditions and stipulations shall extend to and be binding on all heirs, personal representatives, successors and assigns of Lessor and Lessee. This lease contains all of the agreements and understandings of Lessor and Lessee respecting the subject matter hereof and no implied covenants or obligations, or verbal representations or promises, have been made or relied upon by Lessor or Lessee supplementing or modifying this lease or as an inducement thereto.

IN WITNESS WHEREOF, the undersigned have executed this instrument on the date appearing above.
