RE: Establishment of Special Revenue Fund: NSP Grant Fund

In February 2009, Kent City Council approved the City’s participation in the Neighborhood Stabilization Program (NSP), which the Ohio Department of Development awarded as a regional collaborative grant to the City of Kent, the City of Ravenna, and Portage County. Portage County was designated as the Lead Entity among the three participating jurisdictions and is responsible for requesting and distributing funds on a reimbursement basis for eligible NSP activities.

The February 2009 resolution (2009-20) authorized the City to enter into a Subrecipient Agreement with Portage County in order for the City to be reimbursed for NSP eligible expenditures. Portage County signed/executed the Subrecipient Agreement on July 28, 2009, which formally committed $350,000.00 of the available NSP grant funds to the City of Kent.

The NSP is a new grant source and revenue/expenditures will need to be accounted for in a manner that is separate from other grant funds so the City will need to establish a “special revenue fund” in the City budget for the NSP funds. In consultation with Ms. Copley, Mr. Coffee, and Mr. Mockler, I put together the attached ordinance to be presented to Council concerning the establishment of the “NSP Grant Fund” (fund #127).

Once the special revenue fund has been approved by Council, Mr. Coffee will be putting together the NSP appropriations request, which will be presented to Council in the near future.

If you have any questions or need additional information concerning this matter, please let me know.

Thank you.

PARTA is adding two new routes to our existing service starting August 24th, 2009.

The first is the Black Squirrel fixed route. This route will service East Main Street in Kent and Franklin Township, starting at Wal-Mart and Pebblebrook, through Campus Pointe, and ending at the C-Midway transfer point at Kent State University with one bus every twenty minutes. This route will run during the KSU school year to pick up the residents of these two new housing complexes.

The second new route is the Ravenna Raven fixed route. This route will service the neighborhoods of Ravenna every half hour with two buses going in opposite directions. This route will replace the current Ravenna Circulator which runs every ninety minutes with one bus. The route will run from 6:30 AM to 10:00 PM Monday through Friday and from 8:00 AM to 6:00 PM on Saturdays. This will bring Saturday service to the Ravenna neighborhoods for the first time ever.
Since PARTA has not had an increase in funding, we have needed to examine our entire route structure to find places to trim in order to support these new routes. It is important to note that with these reallocations, we are still going to cover the same geographic area and time period.

The first reallocation is with the Interurban route service from Kent to Ravenna. Currently, it runs every half hour. Starting August 24th, it will run every hour.

The second reallocation is with the Kent Circulator route. This route follows the Suburban route very closely and currently runs from 7:30 AM until 6:30 PM. In order to reduce the duplication of service in Kent and focus the time to when it’s used most, PARTA will run this route from 11:00 AM until 5:00 PM.

The door to door service that runs from 7:00 AM to 5:00 PM will remain unchanged, and passengers in Kent will be able to use that service for trips that used to be taken on the Kent Circulator in the morning.

PARTA will be taking public comment until August 7th, 2009. Please direct any comments, questions, or concerns to Bryan D. Smith, Director of Planning, 330-678-7745 ext 113, or bsmith@partaonline.org

RE: STAFF REPORT FOR THE AUGUST 17, 2009 BOARD OF ZONING APPEALS MEETING

The following cases appear on the agenda for the August 17, 2009 Board of Zoning Appeals meeting:

NEW BUSINESS

CASE NO.: BZ09-013

APPLICANT: Kent United Church of Christ

SITE LOCATION: 1400 East Main Street

STATUS OF APPLICANT: The applicant is the owner of the property.

REQUESTED ACTION: The applicant is requesting the following:

1) A variance from the maximum number of one sign to allow a total of two free-standing signs (Section 1165.05(a)(1)), and

2) A 62.3 square foot variance from the 20 square foot maximum sign requirement in Section 1165.05(a) to allow a free-standing sign to be 82.3 square feet in size.

ZONING: This property is currently located in a C-R: Commercial - High Density Multi-family Residential Zone District.

TRAFFIC: The property is accessible from East Main Street and Horning Road.

SURROUNDING LAND USES: The property is surrounded by a church to the north of the property, commercial uses to the east of the property and the University on the south and west sides of the property.

APPLICABLE CODE SECTIONS: 1165.05(a)(1) and 1165.05(a)(3)
ANALYSIS:
The property at 1400 East Main Street is currently home to the United Church of Christ of Kent and is zoned C-R: Commercial – High Density Multi-family Residential.

This church currently has a total of three free-standing signs. The applicant proposes to remove two of the signs and replace them with the one, digital display sign. The other sign, which is at the entrance to the parking lot off of Horning Road, will be replaced with a sign that will be approximately 13.6 square feet in size.

The City of Kent Building Department files show that a permit is on file for only one of the signs. In 1987, the sign along the curve on Horning Road was replaced and a permit was issued for this signs replacement. When the other signs were constructed and installed is unknown. The City of Kent Zoning Code states that signs for churches, schools, and other public or quasi-public buildings can have no more than 1 building, ground or pole sign at a maximum of 20 square feet in size. The applicant is proposing to have a total of 2 free-standing (pole) signs. The sign at the parking lot entrance will be 13.6 square feet and the new free-standing sign along East Main Street will be approximately 82.3 square feet in size. The new sign total square footage was calculated to include the digital display and the identification display, as well the brick base both signs will sit on. The new sign will meet all other zoning codes related to setbacks and height restrictions.

Should the Board wish to approve this project, the following language may be used for the motions:

1. Move that in Case BZ09-013, the Board of Zoning Appeals approve the variance from the maximum number of one sign to allow a total of two free-standing signs (Section 1165.05(a)(1)).

2. Move that in Case BZ09-013, the Board of Zoning Appeals approve the 62.3 square foot variance from the 20 square foot maximum sign requirement in Section 1165.05(a)(3) to allow a free-standing sign to be 82.3 square feet in size.
